

**Keynote Speaker: Mr. John Perricone**

# “Developing Inner Strength”

**Student Assembly: 6th-12th**

"Though we are a society that celebrates physical strength, we rarely, if ever, talk about the cultivation of inner strength -- the strength that enables us to make sound decisions in the face of adversity, peer pressure, bullying, media influence, etc.

In his one hour and fifteen minute assembly, Mr. Perricone will guide your students (through interactive exercises, story telling, psychological insights, and age appropriate philosophical discussion) to a realization that will awaken them to the power that resides within themselves to shape their lives and forge their destinies -- and to the realization that their every thought and action matters as they navigate their life's path."

John Perricone is a best-selling author and nationally sought Keynote Speaker. He has been invited to speak in all fifty states.
