

# "Developing a Philosophical Identity"

With over thirty years of classroom experience and numerous local, state, and national awards for teaching excellence to his credit, Mr. Perricone maintains that *"we teach who we are."* He believes that one's philosophy of life is inextricably linked to one's philosophy of education, and that this *"philosophical identity"* ultimately distinguishes those who find joy and passion in teaching from those who find drudgery and a paycheck every two weeks.
